👤 PROFILE

A results-driven Frontend Developer with 4+ years of experience building scalable, responsive web applications with a strong focus on clean UI, performance, and maintainable code. Experienced in working across multiple roles in parallel, combining frontend development with UI implementation, collaboration, and project delivery in remote and distributed teams. Currently open to new opportunities, both **remote** and **relocation-based**, and able to adapt quickly to different projects, teams, and business requirements.

🎓 EDUCATION

Bachelor of Computers and Information, Information Technology (IT)  2019 – 2022
Mansura University

- **GPA: 3.61** (Good Performance).
- **Graduation Project:** “Locating Suitable Drugs in the Nearest Pharmacy Using AI Techniques” – developed an AI-driven solution to identify and recommend appropriate medications based on user location and pharmacy availability.

★ PERSONAL SKILLS

- Management and team-leading skills gained as a Team Leader at graduation project responsible for coordinating project planning activities, monitoring progress, problem-solving, and making decisions
- Presentation skills gained through my experience with the graduation project
- Time management skills gained through working on multiple projects simultaneously and needing to manage their time effectively to meet deadlines and prioritize tasks accordingly.
- Communication skills gained through my interaction with people at events and student activities

📁 WORK EXPERIENCE

Front-End Developer, ALyomHost For It Solutions  Jul 2020 – present
Full-time Remote | Riyadh, KSA

- Developed and deployed responsive websites and landing pages from initial concept to final launch.
- Standardized front-end output by implementing a mobile-first, fully responsive development approach.
- Created and maintained front-end coding standards and documentation to ensure consistency and scalability.
- Implemented live website updates, troubleshooting issues, identifying root causes, and ensuring system stability.
- Collaborated within an Agile/Scrum team and contributed across the full development lifecycle, from analysis to deployment and maintenance.

UI/UX Instructor, AUS

Jan 2023 – Dec 2025

Part-time Remote |
Cairo

- Delivered structured online UI/UX design training in parallel with other professional responsibilities, covering user research, information architecture, wireframing, prototyping, and usability testing using Figma and Adobe XD.
- Conducted live sessions and online critiques, fostering collaboration, discussion, and practical skill development in a remote learning environment.

Technical Support, Ultras FCI

Jan 2020 – Nov 2022

Volunteer | Cairo

- Provided technical support by diagnosing issues quickly and guiding students toward effective solutions.
- Communicated with new students to understand problems clearly and ensure full resolution through consistent follow-up.

Graphic Designer, Zerone Team MU

Sep 2019 – Jan 2021

Volunteer | Manoura

- Designed visual assets for social media, including illustrations, icons, and promotional graphics.
- Created banners, T-shirt designs, and event materials, contributing to the team's branding and on-ground presence.

PROJECTS

Aveto , Multi-Purpose Website

- A modern multi-page website design built as a flexible and reusable layout system suitable for architecture, interior design, construction, and creative businesses.
- The project includes multiple home variations and fully structured inner pages, designed with a focus on clean UI, usability, and scalability. Each page can be used independently or combined to build complete websites for different business needs.
- This project highlights strong skills in UI design, layout structuring, and multi-page website planning.

Qoda , Creative Agency Template

- Developed a modern multi-layout template with GSAP animations and responsive home variations.
- The project is designed for scalability, with ongoing improvements to pages, UI, and animations.

The Chord , Space Booking

- Designed a user-friendly booking website for a café offering private rooms.
- Used animations and micro-interactions to deliver a smooth, intuitive reservation flow.

Nesma United Industries , Corporate Website (KSA)

- Built a professional corporate website showcasing services, sectors, and the company profile.
- Focused on clear structure, strong branding, and an intuitive, modern UI.

Seeds , Charity

- Created a warm, engaging charity website highlighting mission, campaigns, and donation flow.
- Designed a trust-focused layout that guides users to explore and support initiatives.

Al-Takamul Group, Multi-Industry Corporate Web Ecosystem

- Developed the main corporate website plus multiple sector websites with unified branding.
- Each site was tailored to its industry while maintaining consistent UI across the group.

• Sector Websites:
